G7N Logistics Networks

G7N Logistics Networks is a fresh and forward thinking logistics network of independent freight forwarders.

G7N Logistics Networks was born 6 years ago to create new standards within the logistics industry and to focus on the freight forwarding segment of the supply chain.

Our role is to provide professional support and to assist agents all over the world to improve their financial and operational performance.

The need to be a part of an organization that can assist with the challenges forwarders are facing today is now becoming more and more relevant.

Many forwarders are seeing the benefit of joining logistics networks that can help with global growth and assisting them to service more customers in more markets worldwide.

In a market dominated by the multinationals, a professional logistics network is designed to link together like-minded independent forwarders from all over the world in a freight forwarder network that will give them the tools necessary to compete on a global scale.

Winning more business, servicing more clients and working with more reliable agents worldwide. All of this can be achieved by working within a global network of fellow forwarders that can be trusted in all markets worldwide.

OVERVIEW

The Dashboard has been created and is specific to every user. This has been created to allow you to better manage your network contribution, network management and at the same time create awareness for new members, current members, all announcements and departed members. This is just a small step in the right direction as we try to get our members thinking differently and most importantly looking to the future rather than be left behind.

Financial Protection System will now be clear for you to manage your outstanding and owed invoices, this in return reducing the risk of delayed payments.

Member Login Graph gives you an overview on how many times you have logged in over your annual membership and when was your last visit.

The screenshot shows the G7N dashboard for a 'Sample User'. The navigation bar includes links for HOME, ABOUT US, NETWORKS, SERVICES, JOIN US, NEWS & MEDIA, EVENTS & CONFERENCE, CSR, and CONTACT US. The main dashboard features several key sections:

- Visitor Overview:** A donut chart showing 73 profile visitors within 3 months.
- Featured Members:** Profiles for Richard Cruz (Brazil), Stefano Signorini (Italy), and Guillermo Indart (Mexico).

Book Online Meeting will be the first thing you see at the top of your dashboard, making it easier and quicker for you to meet fellow member online.

Second tab:

Member Search allows you to search for other members view their company details and directly sent quote requests.

G7N Quote System, we will get into this a bit later in the document but the graph will be able to show you the amount of business you put in to the network and the amount of business you have received. This will allow you to have a better understanding of your reciprocal business within G7N.

Featured Members will be randomly selected members within the network allowing for everyone to have equal and better visibility within the network.

Financial Protection System

The Financial Protection System has been improved for better visibility and interpretation of your invoices uploaded into the system. Your invoices are now categorized between **Overdue**, **Outstanding** and **Paid** Invoices.

First you need to upload the invoices that you issue into the system by clicking Enter Invoice and filling up the fields in blank with the details that your invoice has. (**Remember** no longer than 5 days of their issue date)

All invoices are directly connected to your notifications. After the upload, the member that has been assigned to particular invoice will get a notification advising that you have uploaded invoice. If this is not paid on time, the other member will receive a 2nd notification informing that the invoice is overdue.

This will also be connected to their G7N Risk rating on their company's profile, which can affect their image within the G7N community.

These procedures have been put in place to create a better awareness and reduce any risk within the network.

The screenshot displays a user interface for managing invoices. At the top, there are four navigation buttons: "My Invoices", "Owed Invoices", "Guidelines", and "Enter Invoice". Below these, the interface is divided into three sections, each with a colored header and a table of invoice data:
